Education

- Visiting Student**, EPFL @Switzerland Jan 2026 – June 2026
- Accepted to LIGHT Laboratory (Laboratory for Intelligent Global Health Technologies) under the Meditron Project, focusing on AI-driven medical imaging and multimodal healthcare research.
- Visiting Student**, University of Münster @Germany Oct 2024 – Feb 2025
- Interned joint research on AI academia–industry collaboration and successfully defended project outcomes.
- Bachelor of Computer and Software Engineering**, Inha University in Tashkent Sep 2022 – Aug 2026
- **CGPA**: 81/100 Expected Final Grade: 86/100
 - **Honors**: Merit-based full scholarship recipient for 4-year program.
 - **Relevant Coursework**: Operating Systems, Data Structures, Computer Algorithms, Calculus, Linear Algebra, Engineering Mathematics, Probability & Statistics, Computer Architecture, System Analysis.

Research Experience

- ML Research Intern**, LIGHT Laboratory, EPFL Starting Feb 2026
- Conducting research on AI-driven medical data within the Meditron Project and making multilingual Meditron.
- Research Assistant**, Sunrise AI Future Hub, University of Münster Oct 2024 – Feb 2025
- Applied Stanford Design Thinking to analyze academia–industry AI collaboration gaps and define user needs.
 - Prototyped the Pantheon Model, Reverse Recruitment App, and Research Paper Insight Tool to bridge gaps.
 - Documented project artifacts and authored a paper accepted at ICID 2025 (proceedings Feb 2026) - Project.

Professional Experience

- Data Annotator**, Tilmoch, Remote | Part-time Jun 2025 – Jun 2026
- Built multilingual corpora from 5000+ Turkic low-resource languages, improving AI translation acc. by 15%.
 - Verified and organized 2000+ entries in the data set, ensuring 100% completeness and quality.
 - Supported AI model training through accurate and well-structured data annotation.
- Data Analyst**, AI Future Hub, Remote | Contract Oct 2024 – Sep 2025
- Surveyed participants to identify gaps between AI education and industry requirements.
 - Designed and launched an AI learning platform, increasing user engagement by 30%.
 - Involved 50+ participants in AI projects, strengthening links between academia and industry.
- Data Analyst**, iQtidorly, Onsite | Full-time Jun 2024 – Nov 2024
- Analyzed user participation data to enhance platform functionality and performance.
 - Increased competition participation by 15%, reaching 10k users via data-driven insights.
 - Automated real-time event tracking and reporting with Google Sheets, improving efficiency.
- Data Analyst**, Deepen, Onsite | Part-time Jan 2024 – May 2024
- Researched trends in 50+ fitness studios, increasing client attraction by 30% via Deepen ERP.
 - Interviewed owners and staff, onboarding 15+ studios to our ERP platform.
 - Created data visualizations to guide strategic decisions and drive market growth.

Leadership Experience

- Young Leaders Development Project (YLDP)**, Project Coordinator Feb 2024 – June 2024
- Selected 42 interns from 530+ applicants, coordinated projects across 4 companies and in-house initiatives.
 - Supported 20 interns to successfully complete their projects with successful outcomes during the project.
- Youth Diplomatic Conference (YDC)**, Co-founder & Project Manager Apr 2024 – June 2024
- Organized and managed the YDC 2024, supported ICJ, EU, OIC, OECD, ACU, and BRICS simulations.
 - Coordinated a 2-day event attended by 150 delegates, ensuring smooth execution and engaging experiences.
- Google Developers Group (GDG)**, on Campus Lead Sep 2024 – Sep 2025
- Led Google Developers Group on Campus, organized tech events, workshops, and hackathons for students.
 - Coordinated the “Built with AI” event with 8 universities’ GDG Leads, 10 speakers, and 500+ participants.
- PureTalent**, Co-founder & CTO Aug 2025 – Current
- Co-founded PureTalent, leading technical development and core platform features for the platform.
 - Built an AI-powered mentorship system, helping mentors guide others toward grants and scholarships.

Professional Development

Lauzhack 2025 participant, by Lauzhack, EPFL

November 2025

- Participated in Lauzhack 2025, engaging in hands-on machine learning workshops and technical sessions.
- Collaborated within our team to develop an AI-based project under mentorship from organizers & experts.

Young Professional Internships Program (YPIP), by American Councils (ACCELS)

June 2025 – Aug 2025

- Participated in a 12-week U.S.-style internship program organized by American Councils and the U.S. Embassy.
- Provides university students with opportunities for professional growth, mentorship, and practical experience.

Young Leadership Program (YouLP), by Friedrich-Ebert-Stiftung (FES),

Sep 2023 – Nov 2023

- Selected top 20 leaders for a 3-month leadership development program for youth aged 18–25 in Uzbekistan.
- Developed teamwork, communication, and civic engagement through mentorship and training sessions.

Projects

🕒 **Unitopai** AI-based platform helping students with essays, profiles, and university matching.

🕒 **Dermato** AI-driven dermatology platform delivering instant skin-condition analysis and personalized advice.

🕒 **MySUW** service bot for rational water usage, implemented in Python telegram bot with telebot.

🕒 **Yoqla** AI-based legal assistant offering instant answers to Uzbek legal and business queries..

🕒 **YouLP** website for the Young Leadership Program, designed and developed for program outreach.

🕒 **WikiStipendiya.uz** platform supporting Uzbek Wikipedia content marathon.

Awards & Achievements

Huawei ImagineWiFi7 Competition one of the 3 winners globally by Huawei enterprise.

MITC Scholarship from the Ministry of Digital Technologies, awarded to 5 top students at Inha University.

Ranked 1st in Uzbekistan as winner of Urban Tech Uzbekistan in the AI direction of Health Tech.

Gold Award in the Water Innovation Competition by K-water with \$700 grant price.

Winner of “Mirzo Ulug‘bek Vorislari 2025” Republican Competition for innovation and technology.

Recipient of Shinhan Financial Group Hope Foundation of the Scholarship for academic excellence and community involvement at the Inha University in Tashkent.

Volunteering Activities

IT Insider at IT Park Uzbekistan promoting tech initiatives and representing IT Park in community and industry.

IT Specialist at Young Leadership Program, managed technical operations and coordinated program sessions.

Data Analyst at AICA, collected data from international AI courses to support future curriculum development.

Mentor at Academic Support Club of IUT, assisting 20+ applicants with exam prep and IUT guidance.

Partner & Organizer at GDG Tashkent, co-organized DevFest 2024 with 5,000+ attendees and 15 international speakers, and volunteered at Google I/O Extended 2023 supporting 800+ guests and 20 speakers.

Student Volunteer & Interpreter at the Ministry of Digital Technologies of Uzbekistan, assisted 20+ VIP guests and a U.S. diplomat at major events like Digital Leadership Forum and ICT Week 2023 with 3000+ participants.

Team Leader at Inha University in Tashkent, leading group CIE-22-12, coordinating with Academic and Student Affairs, and organizing university events and communications.

Teacher Assistant at the Academic Lyceum of Tashkent State Technical University, assisting students in mathematics and physics and supporting classroom activities.

Skills, Languages & Interests

Languages: Uzbek (Native), English (Advanced), Russian (Conversational), Turkish (Elementary)

Programming Languages: Python, C, SQL **Tools:** Power BI, Pandas, TensorFlow, PyTorch, Git

Blogging: documenting and sharing travel insights on TG channel and learning experiences through a TG blog.

Interests: Educational Mentorship, Tech Conferences & Networking, Travelling, Podcasts, Running.

Summary

Applied Data Science and AI researcher with hands-on experience in machine learning, data analysis, and real-world AI systems. Background includes international research at the University of Münster, award-winning AI projects in health and language technologies, and work with low-resource datasets. Strong interest in data quality, applied research, and socially impactful AI.
